Approved for Public Release; Distribution is Unlimited.

Recent update to NASA Crew Training

- ◆ **NASA payloads is adding Rack Familiarization training to pre-assignment training.**
 - ◆ This will assist ASCANs in their pre-assignment job duties and early simulations after assignment
 - ◆ Discussed and agreed to by the CTC and Astronaut Office
 - ◆ JSC Rack instructors can fit this in their current workload
 - ◆ Lessons to be covered: EXPRESS, EMCS, MSG, MSRR/MSL, MELFI, HRF Rack/Ultrasound, WORF

Recent update to NASA Crew Training

◆ Implementation:

- ◆ Planned to be offered on a 2x/year basis (usually fall and spring)
- ◆ Not a replacement for current Familiarization classes in the assigned timeframe (~L-12)
- ◆ Lessons will be documented in CTC database
- ◆ Once crew is assigned, CTC will assess if Rack Familiarizations are recent enough to forego training again in the assigned flow.

Recent update to NASA Crew Training

- ◆ **CTC worked with JSC scheduler to get first class on ASCAN schedules.**
 - ◆ **October 2016**
